

for his own particular reasons not to have it public, I don't see why those in a lesser echelon or lower echelon who have been effectively used by it should not have the information as well.

So, I would hope that you would notify the universities and then also indicate to the public. I can't conceive that this information will not be put out in the newspapers, and it puts the university people at an extraordinary disadvantage, and of course some of it is wrong, which is the fact of the matter, and I think some university official saying, well, it isn't so, is a lot different than if they know it is confirmed or it is not confirmed in terms of the Agency itself. I think that there is a responsibility there.

Admiral TURNER. I have great sympathy with what you are saying. I have already notified one institution because the involvement was so extensive that I thought they really needed to protect themselves, and I am most anxious to do this in whatever way will help all of the people who were perhaps unwitting participants in this, and the difficulty I will have is, I can't quite do, I think, what you suggested, in that I may not be able to tell an institution of the extent and nature of its participation.

Senator KENNEDY. Well, you can tell them to the best of your information, and it seems to me that just because the university or an individual is going to be embarrassed is not a reason for classifying the information. So, I would hope—I mean, I obviously speak as an individual Senator, but I feel that that is an incredible disservice to the innocent individuals and, I think, a disservice to the integrity of the universities unless they are notified, to be able to develop procedures you are developing with regards to your own institution and we are trying to in terms of the Congress. Certainly the universities are entitled to the same.

Admiral TURNER. Yes. Not all of these, of course, were unwitting.

Senator KENNEDY. That's right.

Admiral TURNER. Many of them were witting, and therefore they can take all those precautionary steps on their own, but I am perfectly open to doing this. I am only interested in doing it in a way that when identifying a university it will not lead to the public disclosure of the individuals, whom I am not allowed to disclose, and so on.

Senator KENNEDY. That could be done, it seems to me.

Admiral TURNER. So, we will see if we can devise a way of notifying these institutions on a private basis so that they can then make their own decision whether their equities are best served by their announcing it publicly or their attempting to maintain it—

Senator KENNEDY. Or you. I wonder. What if they were to ask you to announce or indicate?

Admiral TURNER. My personal conscience, sir, at this time, is that I would be doing a disservice to these universities if I notified the public.

Senator KENNEDY. Would you meet with some university officials and ask what their views are or whether they feel that the preservation of the integrity of the universities would be better served or not? I think that would be useful to find out from small, large, private, and public universities' officials how they view the integrity—

Admiral TURNER. Fine. I will phone several university presidents today who are my friends and who are not involved in this, and ask them what they think the equities would be.

Senator KENNEDY. All right. You let us know, too.

Admiral TURNER. But I am not sure that I see that there is any great benefit in my notifying the public as opposed to the university notifying them. Let him have his choice whether he wants—each institution wants to have it made public.

Senator KENNEDY. Yes. The fact would remain that the institution's credibility would be better served if the institution's president were to deny it and the university indicated that it did not participate in that program than if the university were to deny it and the Agency says nothing. It seems to me that that would be the strongest, and the only way that that is going to be credible. I would value it if you would get some input from universities as to what they believe is the fairest way in terms of the preservation of the integrity of the universities.

Let me, if I could, ask on the question of the uses of these safe houses, as I understand from information that was provided to us in the course of our last committee, the testing of various drugs on individuals happened at all social levels, high and low, it happened on native Americans and also on foreign nationals. That is what I understand was the nature of the project itself.

Now, I am just wondering whether those tests were conducted at the two locations on the east coast and the west coast which were known as safe houses. To your knowledge, is that correct?

Admiral TURNER. Yes.

Senator KENNEDY. In terms of the research in this particular program, it did not go beyond the safe houses located on the east coast and the west coast? I believe I am correct on that.

Admiral TURNER. That type of unwitting testing of sort of randomly selected individuals, yes.

Senator KENNEDY. It was just located in those two places?

Admiral TURNER. To the best of our knowledge, there were only two locations.

Senator KENNEDY. Well, how do we interpret randomly selected?

Admiral TURNER. Well, as opposed to prisoners in a prison who were somehow selected.

Senator KENNEDY. All right. Do you know from this information how many people were recruited during this period?

Admiral TURNER. No idea.

Senator KENNEDY. Do you know approximately?

Admiral TURNER. I asked that question the other day, and we just don't have—apparently we are very—well, either there were no records kept of the actual numbers and types of people tested or they were destroyed.

Senator INOUE. Senator Schweiker.

Senator SCHWEIKER. Thank you, Mr. Chairman.

Admiral Turner, I would like to come back to the experiments which may have been conducted at the hospital research facilities which the CIA helped to finance. It wasn't clear to me from your previous answers what kind of work was done there. I gather you are unclear on that, too, from your remarks, yet I find in the CIA documentation which you have supplied us, a list describing some of the advantages the Agency hoped to gain. It says:

(a) One-sixth of the total space in the new hospital wing will be available to the Chemical Division of TSS * * * ; (b) Agency sponsorship of sensitive research

projects will be completely deniable; (c) Full professional cover will be provided for up to three biochemical employees of the Chemical Division; (d) Human patients and volunteers for experimental use will be available under controlled clinical conditions with the full supervision of

and there is a blank, something has been deleted.

It seems pretty clear to me what they intended to do in that particular wing. Doesn't it to you? Why would you go to such elaborate preparations, to buy part of the wing, bring three of your own personnel there, give them a cover, and give them access to patients? Why would you go to such trouble and expense to arrange all that, if you weren't planning to experiment on people in the hospital?

Admiral TURNER. I agree with you 100 percent, sir. Those were clearly the intentions. I have no evidence that it was carried out in that way. I am not trying to be defensive, Senator. I am only trying to be absolutely precise here.

Senator SCHWEIKER. Well, then, as to the nature of what was done there, the last paragraph on the same page of the document says, "The facilities of the hospital and the ability to conduct controlled experimentations under safe clinical conditions using materials with which any agency connection must be completely deniable will augment and complement other programs recently taken over by TSS, such as," and then there's another deletion.

Now, the words following "such as" have been deleted. That is still classified, or at least it was removed when this document was sanitized and released. It seems to be that whatever was deleted right there would give you a pretty good clue as to what they were doing, since it says that the activities would "augment and complement other programs" undertaken by TSS. So, I have trouble understanding why you don't know what was contemplated. Just the fact that similar programs are referred to in the document, though what they are is still deleted, should enable you to check it out.

You could look at what went on in the similar programs mentioned following the "such as" in the classified version of this document.

Admiral TURNER. Senator, I have not said that we don't know what was contemplated being done there. We do not know what was done there.

Senator SCHWEIKER. Why did you delete that reference? Why is that still classified, that particular project of whatever it is?

Admiral TURNER. I don't know this particular case. We will get you the exact answer to that one and inform you about it, but it is quite probable that that other case is unrelated to this in the—well, not unrelated, but that that was a project that still deserves to be classified.

[The material referred to follows:]

Construction of the Gorman Annex was begun in 1957 and the Annex was dedicated in March 1959. Of the several MKULTRA projects conducted at Georgetown only one involving human testing covered a time span subsequent to March 1959. Subproject 45 ran from 1955 to 1963, thus it is possible that the final four years (1959-1963) of the subproject could have been spent in the Gorman Annex. However, there is no reference to the Gorman Annex or a "new Annex" in Subproject 45 papers, neither is there any mention of the subproject moving to a new location in 1959 or later years.

Authorization to contribute CIA funds toward construction of the Gorman Annex is contained in Subproject 35 of MKULTRA. Recently discovered material indicated that Dr. Geschickter continued his research for sleep- and amnesia-producing drugs under Project MKSEARCH through July 1967 at Georgetown University Hospital. But it is impossible to determine if the facilities of the Gorman Annex were involved.

Senator SCHWEIKER. I think that would give us a pretty good clue as to what was going to be done in the wing the CIA helped to finance.

Was there any indication at all in the records you found that the project ultimately used cancer patients or terminally ill patients in connection with this facility?

Admiral TURNER. I'm sorry. I missed your question because I was trying to get the data on the last one. I will read you the blank.

Senator SCHWEIKER. Go ahead.

Admiral TURNER. QKHILLTOP. It doesn't help you, but—

Senator SCHWEIKER. Can you tell us what that is, or is it still classified?

Admiral TURNER. I don't know, and I assume from the fact that we deleted it, it is still classified, but I will get you that answer, sir.

Senator SCHWEIKER. Thank you. I'd like to see that information. [See p. 171 for material referred to.]

Now my next question was: Is there any indication, Admiral, that projects in that particular center involved experimentation on terminally ill cancer patients?

Admiral TURNER. I missed the first part of your question, sir. I am very sorry.

Senator SCHWEIKER. Do you have any indication that some experiments in the facility used terminally ill cancer patients as subjects? You do acknowledge in your statement and it is clear from other documents that these kinds of experiments were at some point being done somewhere. My question is, is there any indication that cancer patients or terminally ill patients were experimented with in this wing?

Admiral TURNER. Yes, it does appear there is a connection here, sir.

Senator SCHWEIKER. The other question I had relates to the development of something which has been called the perfect concussion. A series of experiments toward that end were described in the CIA documents. I wonder if you would just tell us what your understanding of perfect concussion is.

Admiral TURNER. Is that in my testimony, sir, or in some other document?

Senator SCHWEIKER. Subproject 54, MKULTRA, which involved examination of techniques to cause brain concussions and amnesia by using weapons or sound waves to strike individuals without giving warning and without leaving any clear physical marks. Someone dubbed it "perfect concussion"—maybe that was poetic license on the part of our staff rather than your poets over there. I wonder if you could just tell us what brain concussion experiments were about?

Admiral TURNER. This project, No. 54, was canceled, and never carried out.

Senator SCHWEIKER. Well, I do believe the first year of the project in 1955 was carried out by the Office of Naval Research, according to the information that you supplied us. The CIA seems to have been participating in some way at that point, because the records go on to say that the experimenter at ONR found out about CIA's role, discovered that it was a cover, and then the project was transferred to MKULTRA in 1956. Again, this is all from the backup material you have given us. So, it was canceled at some time. I am not disagreeing

with that, but apparently for at least a year or two, somebody was investigating the production of brain concussions with special black-jacks, sound waves, and other methods as detailed in the backup material.

Admiral TURNER. The data available to me is that this project was never funded by the CIA, but I will double-check that and furnish the information for the record for you as to whether there was ever any connection here and if so, what the nature of the work was.

[The material referred to follows:]

Mr. Laubinger corrected his testimony regarding Subproject 54 during the September 21, 1977 hearings before the Subcommittee on Health and Scientific Research of the Human Resources Committee. The relevant portion is reproduced below:

Mr. LAUBINGER. On project 54, it has got a rather sensational proposal in there, in terms of the work that they propose to do, and you asked about the proposal and I said, in fact, it was never funded under MKULTRA. Now, I overlooked—at least, my memory did not serve me correctly when I went through that file folder to see one memorandum dated January 10, 1956, which makes it quite clear, as a matter of fact, that that proposal was based on prior work that was funded by the Agency.

Senator SCHWEIKER. By what?

Mr. LAUBINGER. By the CIA. So, that information was in their file folder. It did not happen to be in my head when I testified.

Senator SCHWEIKER. I think I might have read you that, and that is why I argued at the time with you, because I think I had in front of me, as I recall, some indication that it was funded there. I did read that to you. So, you did supply it to us; there is no argument about that information.

Mr. LAUBINGER. Perhaps I am sort of headstrong, myself, and in my own view, I am reading under the ULTRA project, that if it had been funded under ULTRA, it would have had a project number and identified as such. The thing that threw me was that it was funded, apparently, outside of any MKULTRA activity and it was under the normal contracting process, so that it was not included in MKULTRA as any work done under that funding umbrella.

The file folder that you have and I have, right here, makes it quite clear, however, that a year's work was done through navy funding—a navy funding mechanism—on which the proposal was based that ultimately came into the MKULTRA program. That second proposal was never funded. So, there was conflict and I, personally, I think, introduced a little bit of confusion in that in my testimony.

Senator SCHWEIKER. Well, do you agree or not agree with DOD's statement here that even though the initial funding was navy, it was really a conduit for the CIA?

Mr. LAUBINGER. I think that is correct.

Senator SCHWEIKER. Yes; I would appreciate that. I would like to know how it went from ONR to CIA after a year. Somebody made a decision to make that transfer, and to make this an MKULTRA subject. There had to be some sort of review that led to a decision to continue that kind of concussion—total blackout, maximum amnesia, and whatever else it was you were interested in—study and testing.

Mr. LAUBINGER. Senator, if I may try to say a few words on that, the files that were available to us for inspection, which are limited, indicated that there was a project being carried on by the Navy having to do with the effects of brain concussion. The CIA developed an interest in that, and considered funding it, but actually never did, and as the admiral testified, the MKULTRA is merely a funding mechanism, a place they go for money to do such things, but there is no evidence that I know of that that project was ever funded.

Senator SCHWEIKER. Well, I am confused, because here again is another quote from a document that we have seen, which you have released and supplied to us:

Following is the technical progress made under the current [deleted] contract: (a) Specialized instrumentation and numerous testing techniques have been developed to obtain the desired dynamic data; (b) considerable data has now been obtained supporting the resonance-cavitation theory of brain concussion; and (c) preliminary acceleration threshold data has been obtained for a fluid-filled glass simulated skull.

It goes on to talk about a blast range and a 2,500-square-foot laboratory. The document notes that "Three blast test series have been run to date." It describes a special blackjack device, "a pancake-type blackjack giving a high peak impact force with a low unit surface pressure."

I agree the records are inconclusive as to the results of this work, but it certainly seems that some testing was done.

Mr. LAUBINGER. Senator, you are putting us in the same position I think you were stating that you were in earlier in referring to documents not before us, but I believe you are quoting from a proposal that someone sent to the Agency to fund this work, and he is referring to past work. The past work would have encompassed a lot of things like that, but CIA was not involved with that.

Senator SCHWEIKER. What do you mean, Admiral, on page 6 of your testimony when you mention projects using magician's art? How do magicians get into the spook business?

Admiral TURNER. I have interpreted this as to how to slip the mickey into the fin, but I would like to ask my advisers here to comment.

Mr. BRODY. I think that is essentially it, Senator. It is surreptitious administration of material to someone, deceptive practices, how to distract someone's attention while you are doing something else, as I understand it. It was also some type of a covert communication project involved with the study of how magicians and their assistants perhaps communicate information to one another without having other people know it. This is the type of thing that was involved, sir.

Senator SCHWEIKER. Thank you, Mr. Chairman.

Senator INOUE. Senator Huddleston?

Senator HUDDLESTON. Thank you, Mr. Chairman.

Admiral, in your checking these newly discovered documents and interviewing members of the CIA staff, did you find information that would confirm the contention described by the reporters for the New York Times that this type of experimentation was begun out of a fear at the Agency that foreign powers might have had drugs which would allow them to alter the behavior of American citizens or agents or members of the Armed Forces who were taken into custody, and which would have resulted in false confessions and the like? Is my question clear?

Admiral TURNER. Yes, sir. I haven't personally read the documentation on that. In my discussions with the people who are well informed in this area at the Agency, I am told that that is the case.

Senator HUDDLESTON. Was there any evidence or any indication that there were other motives that the Agency might also be looking for drugs that could be applied for other purposes, such as debilitating an individual or even killing another person? Was this part of this kind of experimentation?

Admiral TURNER. Yes; I think there is. I have not seen in this series of documentation evidence of desire to kill, but I think the project turned its character from a defensive to an offensive one as it went along, and there certainly was an intention here to develop drugs that could be of use.

Senator HUDDLESTON. The project continued for some time after it was learned that, in fact, foreign powers did not have such a drug as was at first feared, didn't it?

Admiral TURNER. That is my understanding. Yes, sir.

Senator HUDDLESTON. Is there any indication that knowledge gained as a result of these experiments has been useful or is being applied in any way to present operations?

Mr. BRODY. Senator, I am not sure if there is any body of knowledge. A great deal of what there was, I gather, was destroyed in 1973. I would like to defer to Frank here. Do you know of any?

Mr. LAUBINGER. I know of no drugs or anything like that developed under this program that ever reached operational use or are in use today.

Senator HUDDLESTON. So apparently any information that was gathered was apparently useless and not worth continuing, not worth further development on the part of the Agency.

Mr. LAUBINGER. I am having difficulty hearing your questions.

Senator HUDDLESTON. I can hardly hear myself.

Admiral TURNER. I think the answer to your question is that we have no evidence of great usefulness on this, and yet I think we should remember—

Senator HUDDLESTON. Well, is it accurate to say that this experimentation produced few useful results or had little application at all to the operations of the Agency or anybody else as far as we know?

Admiral TURNER. I think that is basically correct. At the same time, I would point out that we had two CIA prisoners in China and one in the Soviet Union at this time, and we were concerned as to what kinds of things might be done to them, but I am not saying that—

Senator HUDDLESTON. Have you detected any sign that any other nation is continuing or has in the past conducted experiments similar to this or with a similar objective?

Admiral TURNER. I am not prepared to answer that one off the top of my head, sir, but I will get it to you.

[The material referred to follows:]

We maintain no files of up-to-date information on the testing of drugs in foreign countries. Some years ago we occasionally would review foreign research on antibiotics and pharmaceuticals in connection with public health and civil defense assessments. For a few years beginning in 1949 we assessed foreign research on LSD under Project ARTICHOKE because of concern that such drugs might be employed against Agency and other U.S. personnel. Information relative to this work has already been provided to relevant Committees. In this early work we also occasionally looked at foreign human experimentation; we long ago eliminated our holdings on this subject and no collection requirements are any longer served. As consumer interest in this area has dropped off and higher priority areas need attention, we have virtually no present coverage with the possible exception of an occasional scanning of the literature for a specific program. To the best of our knowledge no other unit in the Intelligence Community is tracking this subject now.

Senator HUDDLESTON. You don't know whether any of your agents anywhere in the world have been subjected to any kind of procedure like this?

Admiral TURNER. We certainly know of other powers conducting research in these areas, yes.

Senator HUDDLESTON. Do you know how they go about that research?

Admiral TURNER. It is pretty sketchy, the information we have.

Senator HUDDLESTON. Do you know of any other organization in this country or any institution that has conducted extensive research on unwitting individuals and through unwitting institutions?

Admiral TURNER. Well, I have read something in the newspapers about this, but I have not familiarized myself with it in specifics.

Senator HUDDLESTON. It is not a normal mode of operation for human research, is it?

Admiral TURNER. No, sir.

Senator HUDDLESTON. Thank you, Mr. Chairman.

Senator INOUE. Senator Wallop?

Senator WALLOP. Mr. Chairman, I only have one to follow up on Senator Huddleston's questions and my earlier ones. You are not really saying, are you, Admiral Turner, that there are no mind-altering drugs or behavior modification procedures which have been used by foreign powers?

Admiral TURNER. No, sir, I am not.

Senator WALLOP. I drew that inference partly in answer to my question that you knew of no truth serum. Maybe that is a misnomer, but surely there are relaxants that make tongues looser than they would otherwise be. Isn't that true?

Admiral TURNER. Yes.

Senator WALLOP. So I think it is fair to say, too, that the experience of many American prisoners of war in the Korean conflict would indicate that there are behavior modification procedures in use by foreign powers of a fairly advanced degree of sophistication.

Admiral TURNER. Yes, sir.

Senator WALLOP. Again, I will just go back and say I think this must have been part of the motivation. I don't think you would have mentioned Cardinal Mindszenty had you thought his behavior was normal at the time or had anybody else. So, I would just again say I think it is a little bit scapegoating. I don't think the object of this hearing is in any way to lay blame on those passed or those dead or otherwise, but I think it is a little bit scapegoating to say that it stopped with the directors of the CIA or the DCI's of the time. Also I think it is a little bit scapegoating to say they didn't even know it, but that it was some lower echelon acting alone.

I think this was a behavior pattern that was prevalent in those years, and I think the object lesson is that we have discovered, we think and we hope, through your assurances and other activities of the Congress, means of avoiding future incidents of that kind. I thank you, Mr. Chairman.

Senator INOUE. Senator Chafee?

Senator CHAFEE. No questions.

Senator INOUE. Senator Kennedy, I think you have another question.

Senator KENNEDY. Just talking about the two safe houses on the east and west coast as being the sources for the unwitting trials, now, the importance of this and the magnitude of it, I think, is of significance, because we have seen from your records that these were used over a period of 8 or 9 years, and the numbers could have been considerable. You are unable to determine, at least in your own research, what the numbers would be and what the drugs were, how many people were involved, but it could have been considerable during this period of time.

It would certainly appear to me in examining the documents and the flow charts of cash slips that were expended in these areas that it was considerable, but that is a judgmental factor on it, but I think it is important to try and find out what the Agency is attempting to do to get to the bottom of it.

Now, the principal agent that was involved as I understand it is deceased and has been deceased for 2 years. The overall agent, Mr. Gottlieb, has indicated a fuzzy memory about this whole area. He has testified before the Intelligence Committee. Yet he was responsible for the whole program. Then, the Director had indicated the destruction of the various materials and unfamiliarity with the project.

Now, you have indicated in your testimony today that there are two additional agents on page 9 of your testimony, you indicated there are two additional agents which you have uncovered at the bottom of it, and you say, the names of CIA officials who approved or monitored the various projects. You talk about the two additional agents in your testimony.

Now, I am just wondering if you intend to interview those agents to find out exactly what is being done. I suppose, first of all, shouldn't the project manager know what was being done?

Admiral TURNER. Our first problem, Senator, is that we have been unable to associate an individual with those names at this point. We are still burrowing to find out who these people are. We haven't identified them as having been CIA employees, and we don't know whether these were false names.

Senator KENNEDY. You are tracking that down, as I understand it?

Admiral TURNER. Yes, sir.

Senator KENNEDY. You are tracking that down, and you have every intention of interviewing those people to find out whatever you can about the program and project?

Admiral TURNER. My only hesitation here is whether I will do this or the Justice Department.

Senator KENNEDY. It will be pursued, though, I understand?

Admiral TURNER. Yes, sir.

Senator KENNEDY. Either through the Agency or through the Justice Department?

Admiral TURNER. [Nods in the affirmative.]

Senator KENNEDY. Is it plausible that the director of the program would not understand or know about the details of the program? Is it plausible that Dr. Gottlieb would not understand the full range of activities in those particular safe houses?

Admiral TURNER. Let me say it is unlikely. I don't know Mr. Gottlieb.

Senator KENNEDY. Has anybody in the Agency talked with Mr. Gottlieb to find out about this?

Admiral TURNER. Not since this revelation has come out.

Senator KENNEDY. Not since this revelation? Well, why not?

Admiral TURNER. He has left our employ, Senator.

Senator KENNEDY. Does that mean that anybody who leaves is, you know, covered for lifetime?

Admiral TURNER. No, sir.

Senator KENNEDY. Why wouldn't you talk with him and find out? You have new information about this program. It has been a matter of considerable interest both to our committee and to the Intelligence Committee. Why wouldn't you talk to Mr. Gottlieb?

Admiral TURNER. Well, again, I think the issue is whether this should be done by the Justice Department or ourselves.

Senator KENNEDY. Well, are we wrestling around because you and Attorney General Bell can't agree—

Admiral TURNER. No, sir.

Senator KENNEDY [continuing]. On who ought to do it?

Admiral TURNER. We are proceeding together in complete agreement as to how to go. I have, in connection with trying to find all of these Americans or others who were unwittingly tested, I have some considerable concern about the CIA running around this country interviewing and interrogating people, because I don't want to give any impression that we are doing domestic intelligence.

Senator KENNEDY. I am just talking about one, in this case. That was the man who was responsible for the whole program, and to find out whether anyone within the Agency since you have had this new material has talked to Gottlieb since 1975, and if the answer is no, I want to know why not.

Admiral TURNER. The reason he was not interviewed in connection with the 1975 hearings was that he had left the employ of the CIA and there was a concern on the part of the Agency that it would appear to the investigators that the CIA was in some way trying to influence him and influence his testimony before the committee. If these committees have no objection, we would be happy to contact Dr. Gottlieb and see if he can augment anything here in this new information, though I don't think there is much in this new information that he can add to as opposed to what was available in 1975.

Senator KENNEDY. Well, you see, Admiral Turner, you come to the two committees this morning and indicate that now at last we have the information. We don't have to be concerned about anything in the future on it. Now, I don't know how you can give those assurances to the members of these committees as well as to the American people when you haven't since 1975 even talked to the principal person that was in charge of the program, and the records were destroyed. He is the fellow that was running the program, and the Agency has not talked to him since the development of this new material.

Admiral TURNER. Our only concern here is the proprieties involved, and we will dig into this and work with the Justice Department on

who, if either of us, should get into discussions with Dr. Gottlieb so as not to prejudice any legal rights that may be involved here, or to appear in any way to be improper.

Senator KENNEDY. Well, do I understand you have not contacted the Justice Department about this particular case since the development of this new material about Gottlieb?

Admiral TURNER. Not about Gottlieb specifically. We have contacted him.

Senator KENNEDY. Well, it is amazing to me. I mean, can you understand the difficulty that any of us might have in terms of comprehending that when you develop a whole new series of materials that are on the front page of every newspaper in the country and are on every television, I mean, that means something, but it does not mean nearly as much as the interest that we have in the fact about the testing of unwitting Americans, and every single document that the staff reviews has Mr. Gottlieb's name on it and you come up to tell us that we don't have to worry any more, we have these other final facts, and Mr. Gottlieb has not been talked to?

Admiral TURNER. Sir, I am not saying that these are in any way the final facts. I am saying these are all the facts we have available.

Senator KENNEDY. And you have not talked to the person who was in charge of the program, so what kind of value or what kind of weight can we give it?

Admiral TURNER. We are happy to talk to him. I think the issue here again is one of propriety and how to go about this. We have not, I believe, enough new information about Gottlieb's participation here to signal that his interview would be that much more revealing than what was revealed in 1975.

Senator KENNEDY. The importance of it, I think, from our point of view, is, he would know the drugs that were administered, the volume of drugs, how it was administered, and in terms of your ability to follow up to protect these people and their health, to the extent that it can be done, that opportunity is being lost.

I want to get on to some others, but will you give us the assurance that you will get ahold of Gottlieb or that you will talk to Attorney General Bell and talk with Gottlieb?

Admiral TURNER. Yes, sir.

Senator KENNEDY. And let us know as to the extent of it. I don't see how we can fulfill our responsibility in this area on the drug testing without our hearing from Gottlieb as well, but I think it is important that you do so, particularly since all of the materials have been destroyed.

These other two agents, have they talked to them?

Admiral TURNER. We don't know who they are, sir. We are trying to track down and see whether these names can be related to anybody.

Senator KENNEDY. That is under active investigation by the Agency?

Admiral TURNER. Yes, sir.

Senator KENNEDY. And you have the intention of talking to those people when you locate them. Is that correct?

Admiral TURNER. Yes, sir, under the same circumstances as Gottlieb.

Senator KENNEDY. And you have people working on it?

Admiral TURNER. Yes, sir.

Senator KENNEDY. With regards to the activities that took place in these safe houses, as I understand from the records, two-way mirrors were used. Is that your understanding?

Admiral TURNER. Yes, sir. We have records that construction was done to put in two-way mirrors.

Senator KENNEDY. And they were placed in the bedroom, as I understand.

[Pause.]

Senator KENNEDY. Well, we have documents—

Admiral TURNER. I believe that was in the Church record, but I don't have the details.

Senator KENNEDY. And rather elaborate decorations were added, as I understand, at least, to the one in San Francisco, in the bedroom, which are French can-can dancers, floral pictures, drapery, including installation of bedroom mirrors, three framed Toulouse Lautrec posters with black silk mats, and a number of other—red bedroom curtains and recording equipment, and then a series of documents which were provided to the committee which indicate a wide proliferation of different cash for \$100, generally in the \$100 range over any period of time on the particular checks. Even the names are blocked out, as to the person who is receiving it. Cash for undercover agents, operating expenses, drinks, entertainment while administering, and then it is dashed out, and then the other documents, that would suggest, at least with the signature of your principal agent out there, that—“called to the operation, midnight, and climax.”

What can you tell us that it might suggest to you about what techniques were being used by the Agency in terms of reaching that sort of broad-based group of Americans that were being evidently enticed for testing in terms of drugs and others? Do you draw any kind of conclusion about what might have been going on out there in these safe houses?

Admiral TURNER. No, sir.

[General laughter.]

Senator KENNEDY. There is a light side to it, but there is also an enormously serious side. And that is that at least the techniques which are used or were used in terms of testing, and trying to find out exactly the range of drugs used and the numbers of people involved and exactly what that operation was about, as well as the constant reiteration of the use of small sums of cash at irregular intervals. A variety of different techniques were employed but there is an awful lot of documentation putting these matters together.

When you look at the fact that it is a broad range population that has been tested, tested in these two areas, with the kind of cash slips that were used in this, payment mechanisms and decorations and all of the rest, we are not able to put a bottom line on it but one thing is for sure, and that is, Gottlieb knows. That is one thing for sure, because his name appears on just about every one of these documents, and it is, I think, very important to find out what his understanding is of the nature of that. So, we will hear more about that.

Admiral TURNER. I believe Gottlieb has been interviewed by the Congress.

Senator KENNEDY. That's right, he has, and in reviewing the record, it is not very satisfactory, and it just seems with the new information

and the new documentation and the new memoranda—and he did not have the checks at that time—and with the wide variety of different memoranda with his name on it, his memory could be stimulated on that.

Thank you.

Senator INOUE. I would like to thank the admiral and his staff for participating in this hearing. I believe the record should show that this hearing was held at the request of the Agency and the admiral. It was not held because we insisted upon it. It was a volunteer effort on the part of the Agency. I think the record should also indicate that Admiral Turner has forwarded to this committee a classified file including all of the names of the institutions and the persons involved as the experimentors.

I should also indicate that this hearing is just one step involved in the committee's investigation of drug abuse. Just as you have had much work in going over the 8,000 pages, the staff of this committee has had equal problems, but I would like the record to show that you have made these papers and documents available to the committee. I thank you for that.

As part of the ongoing investigation, we had intended to call upon many dozens of others, experimentors, or those officials in charge, and one of those will be Dr. Gottlieb.

In thanking you, I would like to say this to the American people, that what we have experienced this morning in this committee room is not being duplicated in any other committee room in any other part of the world. I doubt that very much. Our Agency and our intelligence community has been under much criticism and has been subjected to much abuse, in many cases justified, but this is the most open society that I can think of. For example, in Great Britain there are about six people who are aware of the identity of the man in charge of intelligence. In other countries, similar conditions exist. Here in the United States we not only know Admiral Turner, we have had open hearings with him, such as this. The confirmation hearings were all open.

In a few weeks, the Senate of the United States will debate a resolution to decide upon whether we should disclose the amounts and funds being used for counterintelligence and national intelligence. I would hope that in presenting this issue to the public, the media will take note that the Agency has cooperated and will continue to. The abuse that we have learned about this morning is one I hope will never happen again, but without constant oversight on the part of the Executive Office, on the part of the Congress, it could happen again. It is important therefore that we continue in this oversight activity.

So, once again, Admiral, I thank you very much for helping us. We will continue to call upon you for your assistance. We would like to submit to you several questions that the members and staff have prepared. We hope you will look them over carefully and prepare responses for the record, sir.

Senator KENNEDY. Mr. Chairman?

Senator INOUE. Yes, sir?

Senator KENNEDY. I, too, want to thank Admiral Turner for his responsiveness. I have had meetings with him in the committees and also conversations, telephone conversations, and private meetings, and

I have found him personally to be extremely responsive, and it is a very difficult challenge which he has accepted in heading this Agency. I want you to know, personally, I, too, would like to see this put behind us. I don't think we are quite there yet in terms of this particular area that we are interested in. I think the Intelligence Committee has special responsibilities in this area of the testing, so we look forward to working with you in expediting the time that we can put it behind, but it does seem to me that we have to dig in and finish the chapter. So, I want to personally express my appreciation to you, Admiral Turner, and thank you for your cooperation and your help, and I look forward to working with you.

Admiral TURNER. Thank you.

Senator HUDDLESTON. Mr. Chairman, I am not sure you emphasized this enough, but I think the record ought to show that Admiral Turner informed the Select Committee on his own initiative when the new documentation was found. The documentation has been made available to us voluntarily, in a spirit of cooperation.

I think this shows a vast difference from the mode of operation that existed prior to the formation at least of the Church committee, and a difference that is very helpful.

Senator INOUE. Thank you very much. Thank you very much, Admiral.

We would now like to call upon Mr. Philip Goldman and Mr. John Gittinger.

Mr. Goldman and Mr. Gittinger, will you please rise and take the oath.

Do you solemnly swear that the testimony you are about to give is the truth, the whole truth and nothing but the truth, so help you, God?

Mr. GOLDMAN. I do.

Mr. GITTINGER. I do.

Senator INOUE. Thank you, sir.

Mr. Goldman, will you identify yourself, and after that, Mr. Gittinger.

Senator KENNEDY. Before we start in, we had a third witness, Mr. Chairman, Mr. Pasternac, who planned to testify, traveled to Washington—he lives in Washington, and was contacted recently—with the intention of testifying this morning. And something—he called us late this morning and indicated that he wanted to get a counsel before he would wish to testify.

Senator INOUE. Mr. Goldman.

Mr. Goldman, will you identify yourself, sir.

TESTIMONY OF PHILIP GOLDMAN, FORMER EMPLOYEE, CENTRAL INTELLIGENCE AGENCY

Mr. GOLDMAN. I am Philip Goldman.

Senator INOUE. And you are a former employee of the Central Intelligence Agency?

Mr. GOLDMAN. Over 10 years ago.

Senator INOUE. And you were employed at the time when MKULTRA was in operation?

Mr. GOLDMAN. There were some MKULTRA's in operation at the time I was there.

Senator INOUE. And Mr. John Gittinger, are you a former employee of the Central Intelligence Agency?

TESTIMONY OF JOHN GITTINGER, FORMER EMPLOYEE, CENTRAL INTELLIGENCE AGENCY

Mr. GITTINGER. I am.

Senator INOUE. Are you still an employee?

Mr. GITTINGER. No.

Senator INOUE. Were you a member of the Agency at the time MKULTRA was in operation?

Mr. GITTINGER. Yes.

Senator INOUE. Thank you. Senator Kennedy.

Senator KENNEDY. I want to welcome both of you to the committee.

If we could start with Mr. Goldman. Were you the project engineer for the safe houses in either San Francisco or New York?

Mr. GOLDMAN. I know of no safe house in San Francisco.

Senator KENNEDY. How about in New York?

Mr. GOLDMAN. I knew of one facility that was established there, but I didn't know anything of its operation.

Senator KENNEDY. Were you a monitor on any testing of drugs on unwitting persons in San Francisco?

Mr. GOLDMAN. No.

Senator KENNEDY. Well, we have a classified document here that was provided by the Agency that lists your name as a monitor of the program and I would appreciate it if you would look——

Mr. GOLDMAN. I think the misunderstanding arises because I was project officer.

Senator KENNEDY. Well, would you take a look at that?

[Mr. Goldman inspected the document.]

Mr. GOLDMAN. This document as it states is correct. However, my——

Senator KENNEDY. That document is correct?

Mr. GOLDMAN. As far as I see on the first page, the project. But my——

Senator KENNEDY. Well, could I get it back, please.

That would indicate that you were a monitor of the program.

Mr. GOLDMAN. I was in charge of disbursing the moneys to Morgan Hall.

Senator KENNEDY. To whom was that?

Mr. GOLDMAN. To the individual whose name was listed at the top of that document.

Senator KENNEDY. And you knew that he was running the project in San Francisco?

Mr. GOLDMAN. I knew he was the person who was in charge out there.

Senator KENNEDY. All right.

Mr. GOLDMAN. But I had no knowledge nor did I seek knowledge of actually what he was doing, because there would be other things involved.

I did receive——

Senator KENNEDY. What were you doing?

Mr. GOLDMAN. I was collecting—I had to be sure that all the receipts that ever were turned in balanced with the moneys that were paid out to see that everything was run all right. There was no illegal use of funds as far as we could determine by the receipts and cash.

Senator KENNEDY. So even though the Agency document indicates that you were a monitor for the program, one of the few monitors of that particular program which you mentioned for San Francisco and Mill Valley, Calif., you described your responsibility only as a carrier of money, is that correct?

Mr. GOLDMAN. I would say as a disburser or carrying out—seeing that the moneys were handled properly. There was within that—I don't know what's done or what he did do in conjunction with other people.

Senator KENNEDY. Were you responsible for the disbursement of all the funds?

Mr. GOLDMAN. I was responsible for turning over the check to him.

Senator KENNEDY. And what did you know of the program itself?

Mr. GOLDMAN. The only thing I knew of the program was what he furnished us in terms of receipts and that sort of thing. I didn't indulge or concern myself in that.

Senator KENNEDY. You still wrote, and I'll let you examine it—it's a classified document—but you wrote a rather substantive review of the program in May of 1963, talking about the experiments, the factual data that had been collected, covert and realistic field trials, about the necessity of those particular—and talked about the effectiveness of the various programs, the efficiency of various delivery systems. That doesn't sound to me like someone who is only—

Mr. GOLDMAN. Well, if you would refresh my memory, if I could read this I would certainly agree with whatever is said there, if it was written.

Senator KENNEDY. I am trying to gather what your role was. You've indicated first of all that you didn't know about—you knew about a safe house in New York; now we find out that you're the carrier for the resources as well and the agent in San Francisco. We find out now that the CIA put you as a monitor. You're testifying that you only were the courier, and here we have just one document, and there are many others that talk about the substance of that program with your name on it and I am just trying to find out exactly what role you were playing.

Mr. GOLDMAN. The only thing I can tell you about this and I am drawing completely on my memory is that this individual who was in charge out there conducted these things and reported them back to the Agency. I didn't participate in any of them. All I know was that he furnished me with receipts for things that were done and told of the work that they had done.

Senator KENNEDY. Well, that document covers more than receipts.

Mr. GOLDMAN. Yes, it tells of what—they had conducted work out there.

Senator KENNEDY. It describes, does it not? Read the paragraph 2.

Mr. GOLDMAN. "A number of covert"—

Senator KENNEDY. Well, you can't read it, it's a classified document, and I don't know why, quite frankly, but it relates to the substance

of those programs and your name is signed to the memorandums on it. I am not interested in you trying to review for us now what is in the document, but I think it would be unfortunate if we were left with the opinion that all you were was a courier of resources when we see a document with your name on it, signed, that talks about the substance of the program. And what we're interested in is the substance of the program. We have the recent documents that were provided by the Agency, which do indicate that you were at least involved in the substance, and I'm just trying to find out whether you're willing to tell us about that.

Mr. GOLDMAN. I am perfectly willing to tell you everything that I can remember.

Senator KENNEDY. But you can't remember anything.

Mr. GOLDMAN. I can't remember the substantive parts of these things, I really can't.

Senator KENNEDY. Of the program that was taking place.

Do you have any greater familiarity with what was happening in New York?

Mr. GOLDMAN. No, no.

Senator KENNEDY. And you have the same function with regards to New York?

Mr. GOLDMAN. The same function with regard to New York.

Senator KENNEDY. Did you ever go to San Francisco?

Mr. GOLDMAN. Yes.

Senator KENNEDY. Did you meet with the agent in charge?

Mr. GOLDMAN. Yes.

Senator KENNEDY. And why did you meet with him?

Mr. GOLDMAN. To discuss some of the receipts and things that were there to find out if these were indeed true expenditures and to find out if everything was going along all right for the work that was being done.

Senator KENNEDY. What work was being done?

Mr. GOLDMAN. No, the reports of these things and whatever was being done. I don't know who he reported to but he did report to somebody.

Senator KENNEDY. You travel out there to find out about the work that's being done, and what does he tell you, that the work is being done well and—

Mr. GOLDMAN. He told me that the work that they were doing was going along, progressing satisfactorily, but to be very frank with you—

Senator KENNEDY. But he didn't tell you what the work was?

Mr. GOLDMAN. To be very frank with you, Senator, I cannot remember the things that happened back in those days. I've been away from the company—from the Agency for over 10 years, and that is even farther back than that, and that was just about the time when I first engaged in this, so it was my first—

Senator KENNEDY. Did they disburse a series of \$100 checks, to your recollection?

Mr. GOLDMAN. I don't recollect it, but if you have it there, then they did.

Senator KENNEDY. Did you know Dr. Gottlieb?

Mr. GOLDMAN. Yes.

Senator KENNEDY. How did you know Dr. Gottlieb?

Mr. GOLDMAN. He had been head of the division when I was recruited.

Senator KENNEDY. Did you talk to him about these programs? Did you have anything to do with him during this period of time?

Mr. GOLDMAN. I didn't have anything to do with him until I would say probably in the sixties.

Senator KENNEDY. And can you tell us what you had to do with him then?

Mr. GOLDMAN. Just what you see there on the papers.

Senator KENNEDY. Well, that is the request for the money and he approves it.

Mr. GOLDMAN. That is the request for money and he approves it, and I am quite sure that I probably discussed with him whether the work was going along all right, whether his reports were being turned in, and whether he was satisfied with the way things were going and did he have any complaints about the way other people were requesting him, but I did not engage myself in anything he was doing.

Senator KENNEDY. Well, did you get the impression that Gottlieb knew what was going on?

Mr. GOLDMAN. I didn't ask.

Senator KENNEDY. But you told him that your impression that what was going on even though you didn't know what was going on, was going on well, I guess? [Laughter.]

Mr. GOLDMAN. I told Gottlieb what you saw in there was that the things appeared to be going along all right. I was repeating and parrotting back the words that were given to me while I was there.

Senator KENNEDY. What was the money being spent for, do you know?

Mr. GOLDMAN. No; I can't recall that, sir.

Senator KENNEDY. Would you remember if we told you it was red curtains and can-can pictures—

Mr. GOLDMAN. No, sir.

Senator KENNEDY. Floral pictures and the rest.

Mr. GOLDMAN. No, sir.

Senator KENNEDY. Recorders.

Mr. GOLDMAN. No, sir.

Senator KENNEDY. Recorders and two-way mirrors.

Mr. GOLDMAN. Wait, hold on. You're slipping a word in there now.

Senator KENNEDY. But you would have authorized those funds, would you not, since you were the—

Mr. GOLDMAN. Did you say two-way mirrors?

Senator KENNEDY. Yes.

Mr. GOLDMAN. Where?

Senator KENNEDY. In the safe houses.

Mr. GOLDMAN. Where?

Senator KENNEDY. San Francisco.

Mr. GOLDMAN. No.

Senator KENNEDY. How about New York?

Mr. GOLDMAN. Yes.

Senator KENNEDY. You remember now that you approved expenditures for New York?

Mr. GOLDMAN. Yes.

Senator KENNEDY. What were those expenditures for?

Mr. GOLDMAN. That was a transfer of money over for the use in an apartment in New York by the Bureau of Narcotics. It was for their use.

Senator KENNEDY. Do you have any knowledge of what was going on in the apartment?

Mr. GOLDMAN. No, sir, other than I know that it had been used, according to the information that I have been given, it was used by the Bureau of Narcotics to make meetings with individuals who they were interested in with regard to pushing dope—not pushing dope, but selling narcotics and that sort of thing.

Senator KENNEDY. Well, I am sure you had many responsibilities and it's a long time ago, but the Agency does indicate that you were project monitor for that particular program.

Mr. GOLDMAN. That's correct.

Senator KENNEDY. Your own testimony indicates you went out to review the expenditures of funds to find out whether they were being wisely used, that you came back and talked to the project director, Mr. Gottlieb, to give him a progress report about what was going on out there.

Mr. GOLDMAN. Yes, sir, I did.

Senator KENNEDY. All those things are true, and yet you draw a complete blank in terms of what was the project itself. That's where the record is now.

Mr. GOLDMAN. I did not go out there to review the projects nor did I come back and talk with Mr. Gottlieb and review what I had observed in terms of any projects that they—that is, other parts of the Agency might have in operation there. I simply reported back those things which were told to me by the individual out there who—and I carried them back and they are contained in the report that you have in front of you, word for word, just as it was given to me.

Senator KENNEDY. The report that you examined here is a substantive report on the particular program and project. And I don't think anyone who wasn't familiar with the project—this is a personal evaluation—could write a report on the substance of it without knowing about it. Now, that's mine. Maybe you can't remember and recollect, and that's—

Mr. GOLDMAN. No; everything I put down in there is things that I was told while I was out there, and if there was any ancillary information involved in there I can tell you I just don't remember that. I really don't.

At the time—that was some years ago. At the time—a lot of time has passed since then and I have made quite sure that if I could recollect it at all, I would do it. If you have some papers and you want me to certify whether yes, this is so or that is so, I can do that, but I can't recall it mentally.

Senator KENNEDY. You just certified the principal. There are others up here.

I would like to go to Dr. Gittinger.

Mr. GITTINGER. It's Mr. Gittinger.

Senator KENNEDY. How long did you serve with the Agency?

Mr. GITTINGER. Twenty-six years.

Senator KENNEDY. Excuse me?

Mr. GITTINGER. Twenty-six years.

Senator KENNEDY. Twenty-six years.

And at some point you moved into the operational support side, is that correct?

Mr. GITTINGER. Yes.

Senator KENNEDY. And did you know Sidney Gottlieb?

Mr. GITTINGER. Yes, sir.

Senator KENNEDY. And did he inform you about the research projects involving LSD?

Mr. GITTINGER. Yes, sir.

Senator KENNEDY. It is my understanding that you were also aware of some of the drug testing projects conducted on unwitting subjects on the west coast using the Bureau of Narcotics people in the operation. Is that true?

Mr. GITTINGER. I was.

Senator INOUE. Excuse me. Would you speak into the microphone? I cannot hear you.

Mr. GITTINGER. Sorry.

Senator KENNEDY. Do you know which drugs were involved in those tests?

Mr. GITTINGER. LSD. And I can't remember for sure much of the others. What is the substance of marihuana, cannabis, is that right, that can be delivered by other than smoking?

Senator KENNEDY. Cannabis?

Mr. GITTINGER. There had been some discussion of that; yes.

Senator KENNEDY. And was heroin also used?

Mr. GITTINGER. Heroin used by CIA?

Senator KENNEDY. No. In the west coast operation.

Mr. GITTINGER. Absolutely not.

Senator KENNEDY. Now, to your knowledge, how were the drugs administered to the unwitting subjects?

Mr. GITTINGER. I have no direct knowledge.

Senator KENNEDY. Why did you go to the safe houses?

Mr. GITTINGER. It's a very complicated story. Just in justification of myself, this came up just day before yesterday. I have not really had enough time to get it all straightened in my mind, so I ramble.

Senator KENNEDY. Well, you take your time and tell us in your own words. We've got some time here.

Mr. GITTINGER. My responsibilities which would involve any of the period of time that you were talking about really was not directly related to drugs at all. I was a psychologist charged with the responsibility of trying to develop as much information as I could on various cultures, overseas cultures, anthropological type data, if you follow what I mean. I was also engaged in trying to work out ways and means of assessing people and understanding people.

I originally became involved in this through working on Chinese culture, and over a series of time I was introduced to the problem of brainwashing, which is the thing that really was the most compelling thing in relationship to this, and became charged with the responsibility of trying to find out a little bit about interrogation techniques.
