

morale booster.

- (e) Human patients and volunteers for experimental use will be available under excellent clinical conditions with the full supervision of [REDACTED] - B
- (f) There would be available the equivalent of a hospital safehouse.
- (g) It is expected that the output of useful results of the Chemical Division in the bio-chemical field will be greatly improved through the more efficient use of technical personnel who would be able to spend more of their time on actual laboratory work.
- (h) [REDACTED] - B
- (i) Excellent facilities would be provided for recruiting new scientific personnel since members of the Chemical Division working under this cover will be in daily contact with members of the Graduate School of the University.
- (j) The regular University library and reprint service will be available as a source of technical information.

VIII. Funding.

It is proposed that \$125,000 be granted to [REDACTED]. If approval is granted, TSS will arrange for payment to be made under the procedures and controls of MKULTRA. These funds would come out of the presently approved TSS Research and Development budget for FY 1955 and no new funds are involved. The funds would be transferred as a grant to [REDACTED]. In turn, [REDACTED] will match these funds with an equal amount and donate a total of \$250,000 to the University as outlined in paragraph V. The sum of \$125,000 would be entirely in the nature of a grant and would in due

Downgraded to: [REDACTED]

by authority of: 187475

6 June 1977

Copy # / of 2 copies

ES JMD/ET; CL BY 187475

course be merged with the entire \$3,000,000 raised for the construction of the wing. The Agency would retain no residual interest in the building or title to any equipment or facilities purchased with this money.

This single grant will constitute the Agency's entire participation in the new hospital wing, and there will be no recurring obligations in the form of annual support of the hospital or additional grants. Transmission of Agency funds to [REDACTED] will be made - B₁ through previously established cover channels set up by the [REDACTED] for similar transmittals in the past. The donation on [REDACTED] - H - B₁ [REDACTED] books will be shown as having been received from [REDACTED] - B₁

In the future when TSS sponsors sensitive research projects which are to be carried out in [REDACTED] each project - B₁ will be individually financed through [REDACTED] as it has been in the past in accordance with previously established procedures and controls using allotted portions of the annual Research and Development budget. The University will be totally unwitting of Agency sponsorship, and the projects to every outward appearance will be sponsored by [REDACTED] - C

In the event of [REDACTED] death, [REDACTED] will continue in being and any activities under this project will be continued through [REDACTED] - B₁ and will be unaffected by his death.

IX. Memorandum of Agreement.

A memorandum of agreement will be signed with [REDACTED] - C outlining to the greatest extent possible the arrangements under which the hospital space under his control will be made available to Chemical Division personnel and the manner in which cover will be provided and other benefits obtained. No contract will be signed since [REDACTED] - C would be unable to reflect any of the Agency's contractual terms in his arrangements with the University when [REDACTED] makes the donation in question. The memorandum of agreement will be retained in TSS. - B₁

X. Security.

All security matters and details are being coordinated with the TSS/ Liaison and Security Office.

NO IMPDET; CL BY 137475

-7-

XI. Resultant Financial Saving.

The \$125,000 to be contributed by CIA plus the \$125,000 in matching funds provided under P. L. 221 to the Building Fund will be more than offset in a few years by the savings which will result from use of this non-profit fund. If a research project at [REDACTED] or other educational non-profit institution is sponsored by the U. S. Government, it is customary for the Government to pay for salaries, equipment, supplies, etc. and for overhead as well. In the case of [REDACTED] the overhead amounts to 80% of salaries. However, if a non-profit foundation such as [REDACTED] sponsors research at a non-profit institution, the funds granted for the work are customarily used to pay for salaries, equipment and supplies but not for overhead. The Government dollar thus buys considerably more research through [REDACTED] than would be the case if no cut-out were used.

9 April 1958

MEMORANDUM FOR: THE RECORD

SUBJECT

: Trip Report, Visit to [REDACTED]
7 April 1958

1. The purpose of this trip was to make arrangements for closing out the [REDACTED] project. [REDACTED] had been given ample previous notice that such was likely to be the intent of the visit, and he prepared himself accordingly.

2. It was explained to [REDACTED] that it would not be possible to carry over funds beyond the end of the current fiscal year. Therefore all work would have to be completed and all payments made prior to 30 June. This deadline appeared acceptable to him, and it was agreed that I would make my final visit there to receive reports and attend to final details on 16 June. [REDACTED] did not have a current financial report, but he estimated that funds currently on hand would be about sufficient for remaining expenditures. He agreed to send the Society within the next 10 days a more exact statement of current balance and estimated remaining expenditures. I tried to impress on him strongly that transfer of additional funds and/or return of unexpended funds must be completed well before the end of the fiscal year.

3. Of the 30 cases called for in the original design 13 have been completed (but only 4 have been transcribed from the tapes). In addition there are 8 cases in progress (of which two are already in interview and 6 are worked up to the point of having the lists of questions prepared). It was agreed that to meet the deadline we would have to limit the design to these 26 cases.

4. It is apparent that [REDACTED] is so involved in the administrative problems of the project that he is not paying any attention to the results. Since to date only 4 cases have been transcribed there is no way of telling what is coming out of it. I assume there were no dramatic reactions, because the interviewers would have let him know about them had they emerged. It is possible, however, that our own analysis of the data may dredge up something of value, although I am dubious on this point.

5. [REDACTED] gave me his usual long involved talk on the difficulties he had encountered which account for the delays. He also talked at some

length about his "experiments" with hypnosis, some aspects of which are mildly hair-raising. Finally he made quite a pitch for continuing some such project as this next year, "with realistic, specific deadlines." I told him we would discuss possibilities after the present project was completed and we had a chance to closely examine the take.

[REDACTED]

July 18, 1958

[REDACTED]

Dear Mr. [REDACTED]

The experiment designed to test the effectiveness of certain medication in causing individuals to release guarded information has been completed in accordance with the original experimental design, with the exception that 25 instead of 30 cases were used. This matter was discussed in more detail in my letter of July 15. Abstracts on all 25 cases, transcriptions of the interviews, Wechsler-Bellevue Intelligence Tests given at the hospital and previously given at this clinic, post-experimental rankings and evaluation sheets, and a schedule covering the drug administration have all been submitted to you under separate cover.

Enclosed is a financial statement which represents the final accounting of the funds allocated by you for use in this project. If, for your purpose, you require a more detailed summary of what specific professional services were performed or more detail with reference to travel expenses or any other item, kindly let me know.

You will note, in this connection, that Dr. [REDACTED] was compensated in an amount exceeding that paid to Dr. [REDACTED]. This was occasioned by the fact that Dr. [REDACTED] spent much time checking the files and records at the [REDACTED] and [REDACTED] Prison selecting cases that might be suitable for our purpose. It was from the cases selected by him that the subjects used in the experiment were finally chosen.

I have been instructed to write a check to the Society for the balance in the account as of today. I would like to

Mr. [REDACTED]

Page Two

July 12, 1954

delay this matter for a few days. Several checks have been written during recent days, and I would like to be sure they cleared the bank in [REDACTED] before closing out the account. You will receive a check in the amount of \$1356.26 early next week.

If there is any additional information required, I will be happy to cooperate.

V. [REDACTED]

RESEARCH PLAN

IN IMPDET; CL BY 187475

LOCATION

The research Project will be carried out at the [REDACTED] - B

[REDACTED] located at [REDACTED] which is - B

located [REDACTED]. The - B

Hospital has one thousand, one hundred and thirty-five (1,135) beds.

At the present time there are one hundred and forty-two (142) non-psychotics classified as criminal-sexual psychopaths. There are four full-time psychiatrists and varying numbers of medical interns; two psychologists; four social workers; nurses and attendants. The superintendent of the Hospital is [REDACTED], a witting member - C

of the research team. The institution comes under the direction of the Executive Secretary of the State Department of Mental Health and any research project is normally approved by the Co-ordinator of Research of the State Department of Mental Health. [REDACTED] will secure - C

this approval. [REDACTED] will make space available and it is - C

possible for the research team to sleep at the Hospital while carrying out their investigation.

SUBJECTS

The subjects will be selected from the one hundred and forty-two (142) criminal-sexual psychopaths on whom there is an adequate previous investigation including police reports, physical, psychiatric and psychologic examinations and social histories. The age range of the

Downgraded to: [REDACTED]

by authority of: 187475

Date: June 1977

IN IMPDET; CL BY 187475

subjects varies from twenty to seventy years and there is a wide variation of intelligence levels and social backgrounds.

INVESTIGATORS

The following men are suggested for the research team:

_____, a psychologist who has had extensive experience in examining criminals; has written extensively on psychopathic sexual deviations; is an authority on polygraph and interrogation methods. - C

_____ for some thirty years; a psychiatrist who has spent his life in the treatment of the criminal insane and maintains the only institution _____ for the care and treatment for the criminal-sexual psychopath. - C

_____ a psychiatrist who has a large private practice. At the present time he is exclusively devoting his time to psychoanalysis. He has had extensive experience examining criminals. As a Navy psychiatrist he has had extensive experience in _____. - C

_____ in the field of eastern cultures, Oriental psychiatry, brainwashing, etc. He has also done drug interrogation with criminals and has engaged in narcoanalysis and hypnoanalysis.

tetrahydrocannabinol acetate derivative. Another team working on another group of subjects will use straight interrogation, LSD with interrogation and a tetrahydrocannabinol acetate derivative and interrogation. Later the third team with another group of subjects will use straight interrogation and a combination of LSD and a tetrahydrocannabinol acetate derivative.

A meeting of all the members of the research project will be briefed on the drugs to be used and all of the pharmacological and medical knowledge gained so far in the use of these drugs.

In selecting groups of subjects for experimentation, the following objectives will be sought:

- 1) Subjects will be selected who have denied allegations of various kinds that can be checked or strongly assumed on the basis of previously established records.
- 2) As far as possible, the actual research man administering drugs will not be aware of the drug he is administering and placebos will be interspersed with drug administration.
- 3) Precautions will be taken to neutralize age, intelligence, physical condition, social background and any other controllable factor in selecting groups. Administration of drugs will be done both openly and surreptitiously.
- 4) Sound recordings will be made of the interrogation and written reports will be obtained in other cases.

- 5) Due care will be exercised in equating methods of interrogation as far as this can be done. The results of interrogation with drugs and other techniques will be checked against existing records and qualitative and quantitative reports will be evaluated. Accurate and uniform reports will be kept and reports will be submitted on the basis of interim progress and complete projects.

DRAFT/~~CONFIDENTIAL~~ 4

30 January 1961

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 42

1. Subproject 42 is to be continued for the same purposes as when originally established: to support ~~covert~~ 3 covert and realistic field trials of certain research and development items of interest to TSD, and to maintain the physical facilities required for these trials.

2. In the past year a number of covert and realistic field trials have been successfully carried out. The results of these experiments have provided factual data essential to establishing protocols for a number of contemplated operations. A continuation of covert and realistic field trials are necessitated by the production of new materials in TSD programs, particularly in areas requiring detailed knowledge of the effectiveness and efficiency of delivery systems. Additional trials are also necessitated by the need for better controlled "field-type" experiments.

3. The estimated cost of the project is \$5,000.00 for a period of six months. Charges should be made against Allotment 1125-1390-3902.

4. Accounting for funds and equipment under this subproject has been established on a detailed basis with the auditor and will continue as in the past.

5. [REDACTED] is approved for TOP SECRET by the Agency and operates under cover for purposes of this subproject.

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 42

1. Subproject 42 is being established to provide for the continued support of the [redacted] facilities, and as such, is a continuation of Subproject 16. Under Subproject 42, it is intended that the [redacted] facilities be moved from [redacted] to [redacted]. These facilities, in the new location, will continue to provide a means for the realistic testing of certain R and D items of interest to CD/TSS and APD/TSS.

2. Subproject 42 will be conducted by Mr. [redacted] a seaman. Certain support activities will be provided by CD/TSS and APD/TSS.

3. The estimated cost for a period of one year is \$8,300.00, starting 1 March 1955.

MEMORANDUM FOR: THE RECORD

SUBJECT : Project-MKULTRA, Subproject 45.

1. The scope of this project is intended to encompass all those activities now engaged in by the ~~████████████████████~~ in its own facilities under the direction of TSS, Chemical Division. These activities will take the form of three lines of biochemical investigation; namely, the curare-like effect of certain thiols, the preparation of hydrogenated quinolines and indole alkaloids, and the continued study of diphenolic compounds. In addition to the above investigations, the present biological testing and assaying techniques will be elaborated and broadened to include cardiovascular and anticarcinogenic effects of compounds resulting from the above programs. (B)

2. The attached proposal from ~~████████████████████~~ indicates the extent of the investigations that his facilities will allow him to carry out on the materials developed in the three lines of research referred to in paragraph 1, as well as certain other materials of interest to TSS/CD. ~~████████████████████~~ also serves as a general consultant to this Division and provides cover and cut-out facilities to the Agency. (C)

3. The total cost of this project for a period of one year will not exceed \$100,000.00. At the present time, the sum of \$40,000.00 is being committed, the balance of the total to be committed at a later date. (C)

4. ~~████████████████████~~ has been granted a TOP SECRET clearance by the Agency, and is fully capable of protecting the security of the Government's interest in this matter. (C)

MEMORANDUM FOR: THE RECORD

SUBJECT: Project MKULTRA, Subproject 45

- (B) 1. The scope of this project is intended to encompass all those activities now engaged in by the [REDACTED] under the direction of TSS/CD. These activities take the form of three lines of biochemical investigation, namely, the Curare-like effect of certain thiols, the preparation of hydrogenated quinolines and indole alkaloids and a program of investigation of toxic cerebral states. This last investigation will include bio-assay and chemical analysis of various body fluids of animals in which cerebral toxemias have been produced. It is the aim of this program to endeavor to understand the mechanism of such states as toxic delirium, uremic coma, and cerebral toxicity from poisoning. In order to continue the established "cover" activities of the [REDACTED] and to make available a pool of subjects for testing purposes, the [REDACTED] and [REDACTED] effects of compounds resulting from the above program will be evaluated.
- (C) 2. The attached proposal from [REDACTED] indicates the extent of the investigations that his facilities will allow him to carry out on the materials developed in the three lines of research referred to in paragraph one, as well as certain other materials of interest to TSS/CD. [REDACTED] also serves as a general consultant to this Division and provides cover and cut-out facilities to the Agency.
- (C) 3. The total cost of this project for a period of one year will not exceed \$100,000. Charges should be made against Allotment 6-2502-10-001.
- (C) 4. [REDACTED] has been requested to submit a summary accounting or a copy of the [REDACTED] annual audit report be made available for the sponsor's inspection. Also, it has been requested that any unexpended funds shall be returned to the Agency.
- (B) 5. Title to any permanent equipment purchased by funds granted [REDACTED] shall be retained by the [REDACTED] in lieu of higher overhead rates.

The research to be undertaken during the twelve month period for which financial support is requested will be devoted to the continued analysis of the neural and endocrine mechanism of stress and the chemical agents that influence it. The screening procedures are based largely upon a further analysis of phases of stress and the influences of this physiologic behavior complex upon both body and skin temperatures as detailed in the accompanying report.

The chemical synthesis of new compounds will be continued
 B at the [REDACTED] under the supervision of [REDACTED]
 C [REDACTED] and at the [REDACTED] under the supervision
 C of [REDACTED]. These chemical agents will be screened for their capacity to provoke stress or to suppress the stress reaction in its acute or chronic phases. Animal testing will include pharmacologic screening and proper toxicity studies of these compounds as heretofore.

Chemical agents that have been found active and within a suitable toxicity range will be subjected to clinical screening on appropriate patients, the initial screening being carried out on advanced cancer patients. The amount of money devoted to chemical synthesis, however, has been further reduced. Chemical compounds available from biologic sources as well as those synthesized in the project will be screened, particularly those that are active in either raising or lowering body temperature.

As heretofore any agents which prove to be of interest

will be subjected to further evaluation both on transplant

Page 2

animal tumors and on cancer patients. This cancer phase of the project will be considered a by-product of the major objective, which will be directed to the problem of stress.
